## Afrobarometer Round 8

### Summary of results for Malawi, 2020

Afrobarometer, a non-profit corporation with headquarters in Ghana, directs a pan-African, nonpartisan research network that conducts public attitude surveys on democracy, governance, economic conditions, and related issues in African countries. Seven rounds of surveys were completed in up to 38 countries between 1999 and 2018. Round 8 surveys in 2019/2020 are planned in at least 35 countries. Afrobarometer conducts face-to-face interviews in the language of the respondent's choice with nationally representative samples.

Regional coordination of national partners in about 35 countries is provided by the Ghana Center for Democratic Development (CDD-Ghana), the Institute for Justice and Reconciliation (IJR) in South Africa, and the Institute for Development Studies (IDS) at the University of Nairobi in Kenya. Michigan State University (MSU) and the University of Cape Town (UCT) provide technical support to the network.

The Afrobarometer National Partner in Malawi, Centre for Social Research, interviewed a nationally representative, random, stratified probability sample of 1,200 adult Malawians from 17th November to 4th December, 2020. A sample of this size yields country-level results with a margin of error of +/-3% at a 95% confidence level. Previous surveys have been conducted in Malawi in 1999, 2003, 2005, 2008, 2012, 2014 and 2017. The Institute for Development Studies of the University of Nairobi provided technical backstopping for the survey. Technical details of the survey, including descriptions of stratification and household selection, translation languages, and related information, can be found in the survey Technical Information Form that follows immediately.

Below is an outline of the survey findings from all the questions posed to respondents. We also present the findings by some critical demographics such as gender and place of residence (urban-rural and peri-urban).

Financial support for Afrobarometer Round 8 has been provided by Sweden via the Swedish International Development Cooperation Agency, the Mo Ibrahim Foundation, the Open Society Foundations, the William and Flora Hewlett Foundation, the U.S. Agency for International Development (USAID) via the U.S. Institute of Peace, Freedom House, and the Embassy of the Kingdom of the Netherlands in Uganda.

**Note:** All figures in the following tables are percentages, rounded to one decimal place. Due to rounding, columns may not add up to exactly 100.0%. Readers are reminded that the sample size in Malawi of 1,200 yields a margin of sampling error of +/-3 percentage points at a 95% confidence level. Please note that Afrobarometer's general practice in most analysis and publications is to report findings rounded to whole numbers. A dash ("-") or blank cell indicates that there were no responses in this category. For Questions 1 through 100, weighted frequency distributions are reported.

**Note:** This presentation of findings does NOT reflect the order in which survey questions were asked during the interview. We have numbered the questions as in the questionnaire but have ordered them by topic. To see the questionnaire, please visit [www.afrobarometer.org](http://www.afrobarometer.org).
